

Subject: Potential caregiving benefit for our team

Hi [Benefits Manager's name],

I wanted to reach out about something that could make a real difference for me and likely others on our team.

I'm currently trying to secure child care and recently learned that Kids & Company partners with employers to offer a range of care solutions, including priority access to child care spots, along with support for things like emergency back-up care, elder care, tutoring, and pediatric care. Given how tough the child care landscape has become across Canada, a partnership like this could be a huge help for working parents here.

I've attached their corporate brochure if you'd like to learn more. If you're interested, you can reach out to Jessica Stapleton, Manager, Corporate Partnerships, at jstapleton@kidsandcompany.com, or book a call with her directly [here](#).

Thanks so much for considering this - I really appreciate you taking a look.

Best regards,
