

# Colour Car Wash

**Colour car wash provides a sensory and imaginative play activity for all ages!**

## **Materials Needed:**

- ✓ Washable Markers
- ✓ Large Toy Car/Wagon
- ✓ Soapy Water Bucket, Sponges and Cleaning Items

**Directions:** Set up a colour car wash station for your child with their large ride on toys. Encourage your child to draw and colour pictures on their toy with washable markers. After they are satisfied with their drawings encourage them to 'clean' their toy using the soapy water and sponges. Add any items to the wash station that will enhance the fun. Your child will enjoy cleaning their toy while playing in the soapy water.

**Learning Value:** This sensory activity develops your fine motor and language skills.
