

Duplo Learning Activities!

Roll a Tower - Get your child busy counting as they roll dice and build the sum with the corresponding duplo pieces.

Measure It - Encourage your child to create a ruler of blocks to measure toys - dinosaurs, cars or household items. Your child will enjoy counting the amount of blocks to match the item they are measuring.

Duplo Printing - Utilize a variety of shaped duplo to press in paint and create an interesting patterned picture.

Pom Pom Sorting - Provide your child with a bowl of pom poms, buttons and tweezers to sort into the holes of the under side of the duplo pieces. Duplo blocks provide the build in hole and colour tool for sorting.

Alphabet Hunt - Label the alphabet on the side of lego blocks to hide through a yard. Encourage your child to hunt for the coloured alphabet blocks and build an ABC tower.
