

# Jello Dig

**Jello sensory is a fun activity for Infants and Toddlers!**

## **Materials Needed:**

- ✓ Plain gelatin
- ✓ Small toys or teething items
- ✓ Edible food colouring

**Directions:** In a shallow container make a box of plain jello according to the package directions, add food colouring and your child's favourite teething items or toys. Place in the fridge to set. Once complete, turn over on your child's high chair tray or covered table for them to explore and 'dig' out their items. Promote language skills as they play with open ended questions throughout this exploration activity.

**Learning Value:** This activity develops your child's critical thinking and fine motor skills.
