

Learning Model

	Question?	Create	Draw	Explore	Investigate
Toys	Can you build a home for your favourite stuffed toy?	Create a new friend for your stuffie using recycled items.	Draw a treasure map or tell a story to take your animals on an adventure.	Build a ramp for your animals to go on an adventure - down the stairs, or off the couch.	How many stuffed animal friends can you stack on top of each other?
Water	Can you build a boat with items found in your home?	Make a river, pond or stream using craft materials and your imagination.	Draw an adventure story of all the places you can go on your boat.	Test your boat - does it float? How can you make it sturdier?	Set up a sink & float experiment with your boat creation and other small items.
Recycle	What can you build with items from the Recycle Bin?	Challenge: How tall can you stack your recyclables?	Draw a picture of your recycled tower.	Using cardboard or boxes - cut out shapes to make your own puzzle.	Set up a Marble Run with tubes found in the Recycle Box.
Fort	Can you build a fort with blankets and sheets?	Read to your stuffies and tell them imaginative stories inside your fort.	While inside your fort, draw and create a board game.	What else can you add to your fort?	What items are best when building a fort?
