

Make Your Own Bird Feeder

Materials Needed:

- ☆ 4 Cups of Birdseed
- ☆ 3/4 cups of Flour
- ☆ 5 teaspoons of gelatin
- ☆ 3 Tablespoons of Corn Syrup
- ☆ 1/2 Cup of Water
- ☆ Cooking Spray
- ☆ Parchment lined cookie sheet/ some sort of tray
- ☆ Cookie- cutters to make the shape of the bird feeder
- ☆ String to hang the bird feeder

Directions: To Start, mix together all of the dry ingredients (listed above) in a bowl. Taking a separate bowl, mix together the corn syrup and water. Once each of the mixes are mixed, combined the ingredients' together. Take a cookie cutter (this can be any shape, as long as it has thick edges), and spray it with the cooking spray. Press the bird feed mixture into the cookie cutters. Then take scissors to gently make a hole. Gently remove the cookie cutter, and allow the bird feed shape time to dry. String a ribbon through the hole, and your bird feeder is ready to be hung in a tree.
