

Make it Rain!

Make it rain is a thrilling sensory activity for Infants & Toddlers!

Materials Needed:

- ◆ 2 Plastic Cups
- ◆ Shallow Tray
- ◆ Aluminum Baking Tray
- ◆ Water

Directions: Puncture several holes in the bottom of two different plastic cups. Provide your child with an aluminum pan, a shallow container filled with a few cups of water and the plastic cups. Allow your child time to explore the water by filling the cup and 'bouncing' the rain drops onto the varying surfaces. Your child will be delighted to experience the sounds and 'Make Rain' inside your home.

Learning Value: This sensory activity develops hand eye coordination while pouring and listening to the variety of sounds.
