

# Recipe for

## Bath Paint

FROM THE KITCHEN OF  
**Kids & Company**

### INGREDIENTS

1/2 cup of Johnson's Baby  
Head to Toe Wash

1/2 cup of corn starch

2 tablespoons of water

food colouring

silicone ice cube tray

### DIRECTIONS

In a medium bowl, mix Johnson's Baby Head to Toe Wash and corn starch together. Add in water if you think the consistency is still too thick, feel free to add more water. You want it to be thick enough to stick to the walls/not too runny. Take your soft ice cube tray to hold the paint and evenly distribute the mixture into the compartments. Use 1-2 drops of food coloring to create different colors. Now grab those paint brushes and you're ready to let your little one paint.

Have fun!
