

Recipe for

Bubble Foam

FROM THE KITCHEN OF
Kids & Company

INGREDIENTS

tear free bubble bath

water

food colouring

hand mixer

DIRECTIONS

Mix 2 parts water to 1 part bubble bath. To make a mix of colours whip up in small batches - 1/2 cup water + 1/4 cup bubble bath for each. Add a little food colouring to each batch then whip it with a hand mixer on med-high for one minute. Use a large bowl to make the foam and you'll end up with stiff peaks. You'll just "know" when it's done and ready. If you've ever beaten whipping cream, this is similar to that concept. Pour each colour into a sensory tub and enjoy!
