

Recipe for

Cloud Dough

FROM THE KITCHEN OF

Kids & Company

INGREDIENTS

Hair Conditioner

Corn Starch

Bowl

Food Colouring

Spatula

DIRECTIONS

Measure two heaping cups of corn starch and pour into a large mixing bowl. Measure one cup of hair conditioner and pour into your bowl of cornstarch. Use a long spatula to mix your two ingredients until it gets hard to mix. Use your hands to finish kneading the dough together. A simple way to do this is to put it all in a gallon zipper seal bag and continue kneading it. Seperate the dough into smaller portions and knead in various colours.

Now it's ready for play!

This dough can be stored in an airtight container in the fridge.
