

Recipe for

Corn Starch Glue

FROM THE KITCHEN OF

Kids & Company

INGREDIENTS

3/4 cup of water

1/4 cup cornstarch

2 TBSP light corn syrup

1 teaspoon white vinegar

Not on stove: 1/4 cup of water mixed with 1/4 cup cornstarch

DIRECTIONS

In a saucepan over medium heat whisk water, cornstarch, light corn syrup and vinegar until they're well blended. Stir the mixture constantly until it thickens. In an airtight container where you want to store your glue, whisk 1/4 cup cornstarch and 1/4 cup water together until smooth. Take the saucepan off heat. Slowly add the mixture from your saucepan into the container, and keep whisking constantly so everything blends together smoothly. Let it cool to room temperature before using.
