

Recipe for

Fingerpaint

FROM THE KITCHEN OF

Kids & Company

INGREDIENTS

1 cup of cold water

2 tablespoons cornstarch

4 tablespoons sugar

food colouring

plastic containers or bowls

small whisk or spoon

DIRECTIONS

In a small container or bowl, combine the sugar and cornstarch. Pour into a saucepan. Add the water to the saucepan, mix well. Bring the water to a boil slowly using medium-high heat. Whisk continuously so that it does not stick to the bottom or burn. As soon as the mixture starts to bubble and thicken, remove the pan from the heat. Let cool for about 5 minutes. Add a drop of food colouring into each plastic container or bowl. Pour the cornstarch mixture equally into each container. Mix well. Pour into jars, cover and let cool completely before using.
