

Recipe for

Frozen Paint

FROM THE KITCHEN OF

Kids & Company

INGREDIENTS

Chilled Shaving Cream

Food Colouring

Glitter

Muffin Tray

DIRECTIONS

Begin by chilling the shaving cream by placing the can in the fridge for an hour so that it will be icy cold. Sit out on the counter for 10-15 minutes, and then fill a muffin tin with the chilled shaving foam. Add drops of food colouring and glitter to each section and stir well. These icy paints are great for painting on paper or for using as a finger paint, and they also make a fantastic bath paint.
