

Recipe for

Watercolour Paint

FROM THE KITCHEN OF
Kids & Company

INGREDIENTS

4 tbsp baking soda

2 tbsp white vinegar

1/2 tsp Light Corn Syrup

2 tbsp cornstarch

Food Colouring

Muffin Tin

DIRECTIONS

Mix the baking soda and vinegar together in a spouted container and wait for the fizzing to stop. Add the corn syrup and cornstarch, and mix well until the cornstarch has dissolved. Pour into your muffin cups. Your mixture will be VERY thick. The trick is to keep it in liquid form, so you can pour it, so keep stirring. As soon as you stop stirring, it will settle back into a solid. If that happens, just dig back in with a spoon, and get it moving again, and it will revert back into liquid form.

Now add your colours and have some fun! Let your paint harden in the cups until they form hard watercolour pucks. To activate have your child use the paint by dipping their brush in water and rubbing it over the paint.
