

Snowstorm in a Bottle

No snow - create your own!

Materials Needed:

- ★ Empty Water Bottle
- ★ Corn Syrup
- ★ Glitter

Directions: Fill an empty water bottle halfway with water and then add equal amounts corn syrup. Add glitter and or tiny silver or blue sequins. Carefully apply a small amount of hot glue to the lid and secure tightly. Encourage your child to shake and create a storm in their bottle.

Learning Value: This activity promotes concentration by encouraging your child to observe the snow spin and settle in the bottle.
