

Spider Web Discovery Basket

Discovery baskets are an exciting activity for Infants & Toddlers!

Materials Needed:

- ➔ Laundry Basket
- ➔ Child's Toys
- ➔ String

Directions: Take a laundry basket and some string or wool, and thread it tightly in any pattern you desire. Make sure to tie off the ends securely to minimize the risk of your child getting tangled! Hide some toys or discovery basket items for your child to attempt to retrieve from the basket. This activity can be made more complex depending on your child's skill level.

Learning Value: This activity develops hand eye coordination and allows your child to use their critical thinking skills to 'free' their items.
