

Textured Busy Bag

Busy bags are small activities or special toys that you keep separate from other toys and games that can be pulled out an exciting activity when you really need them!

Materials Needed:

- ✓ Small pencil case or used wipe container
- ✓ Textured Items - felt, cotton balls, sponges, popsicle sticks - items with a variety of textures

Directions: Create this busy bag by placing items into a container or small pencil case for your child to easily open and remove items to feel and put back in. Everything in the bag should be a different texture to give your child the opportunity to pull out items and explore with their sense of touch. Encourage your child to explain the textures and colours with their words.

Learning Value:

This activity promotes sensory and learning by encouraging your child to focus on their fine motor and tactile skills while exploring the provided materials.
